

STATUS: SUCCESSFULLY IMPLEMENTED

JFS (Josef Siebel) is now a full vendor in MSW Overwatch — alongside DNK, CLK, OBZ, and the other brands. Staff can manage its MAP and UPCs, schedule its Daily Run, run Express Jobs, and include it in Off-Price Analytics, using the same workflows as every other vendor.

WHAT IT DOES	BUSINESS VALUE
Adding a new vendor wires Josef Siebel into the Keepa Off-Price system under the short code jfs. Once MAP prices and UPCs are loaded and the Daily Run schedule is set, the brand is monitored on the same cadence and screens as Dansko, Clarks, and the rest — without changing how those existing vendors work.	Josef Siebel monitored with the same Off-Price process as other brands One place for MAP, UPCs, Daily Run, Express Jobs, and Analytics No disruption to DNK, CLK, or other existing vendor setups Staff already trained on Daily Runs can operate JFS immediately

REQUIRED BEFORE FIRST LIVE RUN

1. Update MAP — Manage MAP with vendor code jfs (Josef Siebel minimum advertised prices).
2. Update UPCs — Manage UPCs → JFS (Josef Siebel) and add or import the product list.
3. Set the Daily Run — Daily Runs → JFS: turn schedule On, choose time / days, pick API or Import mode, and save recipients.

WHAT MUST BE UPDATED	WHERE IT APPEARS												
MAP — Josef Siebel prices tagged as vendor jfs UPCs — product list under category jfs (defines what each run checks) Daily Run — schedule, mode, and recipients must be configured before automated monitoring starts	<table><tr><th>Area</th><th>Use for</th></tr><tr><td>Daily Runs → JFS</td><td>Schedule, mode, Same Day Run, reminders</td></tr><tr><td>Manage UPCs → JFS</td><td>Maintain the Josef Siebel UPC list</td></tr><tr><td>Manage MAP</td><td>Load / edit MAP with vendor code jfs</td></tr><tr><td>Express Jobs</td><td>On-demand Off-Price check for JFS</td></tr><tr><td>Off-Price Analytics</td><td>Track JFS hits and sellers with other vendors</td></tr></table>	Area	Use for	Daily Runs → JFS	Schedule, mode, Same Day Run, reminders	Manage UPCs → JFS	Maintain the Josef Siebel UPC list	Manage MAP	Load / edit MAP with vendor code jfs	Express Jobs	On-demand Off-Price check for JFS	Off-Price Analytics	Track JFS hits and sellers with other vendors
Area	Use for												
Daily Runs → JFS	Schedule, mode, Same Day Run, reminders												
Manage UPCs → JFS	Maintain the Josef Siebel UPC list												
Manage MAP	Load / edit MAP with vendor code jfs												
Express Jobs	On-demand Off-Price check for JFS												
Off-Price Analytics	Track JFS hits and sellers with other vendors												

WHO HAS ACCESS

User	Access
Keepa-access users	Full JFS Daily Run, Manage UPCs, Manage MAP, Express Jobs, and Analytics
Without Keepa access	Cannot open Daily Runs / MAP / UPCs / Express Jobs — unchanged

PRIVACY & SPEED

Uses the same secure Keepa and database paths as DNK, CLK, and other vendors

No separate login or tool — JFS lives inside MSW Overwatch

Adding JFS does not slow or change schedules for other brands

ROLLOUT CHECKLIST

- Confirm JFS appears on Dashboard / Daily Runs menu

Update Manage MAP with Josef Siebel prices (vendor jfs)

Update Manage UPCs for JFS (category jfs)

Open Daily Runs → JFS and turn the scheduler On

Set Daily Run time, days, and API / Import mode
- Save email recipients for JFS reports

Run a short Express Job or Same Day Run to verify MAP + UPCs

Confirm JFS shows in Off-Price Analytics (tracking on)

Optional: enable T-30 "Remind me" for JFS

Brief the team that Josef Siebel uses code jfs everywhere

NOTES FOR LEADERSHIP

Vendor short code: jfs · Display name: JFS (Josef Siebel)

Database seed: seed_jfs_vendor.sql (scheduler + analytics tracking rows)

Until MAP and UPCs are loaded and Daily Run is set, automated Off-Price monitoring for JFS will not produce meaningful results

Existing vendors (DNK, CLK, OBZ, REF, BOR, SFF, TEV, CHA) are unchanged
